reveal
occasional tables

REVEAL occasional tables, designed by Charlie Zagaroli, are part of Studio Q Furniture's designer series of select seating and table collections. REVEAL's contemporary design features the stylish combination of glass, wood and brushed aluminum. Thirteen standard wood finishes are offered with custom wood finish matching available.

The table top's glass inlay is framed by maple wood with gently rounded corners. Shaped wood columns, uniquely centered on each side of the table, support the lower wood shelf. Brushed aluminum cylindrical legs further accentuate the modern look of REVEAL.
